Veyra Telecom | Churn Drivers & Customer Segmentation

Contract: All | Internet Services: All | Payment Method: All

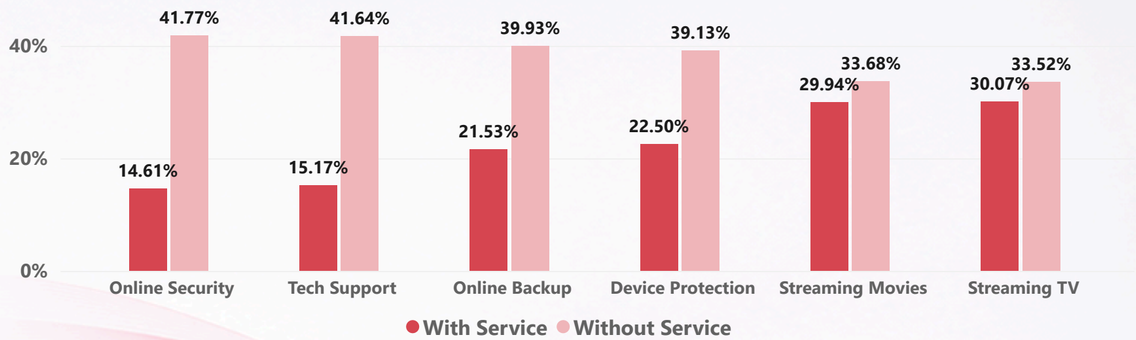

Churn Rate (No Online Security)
41.77%

Churn Rate (No Tech Support)
41.64%

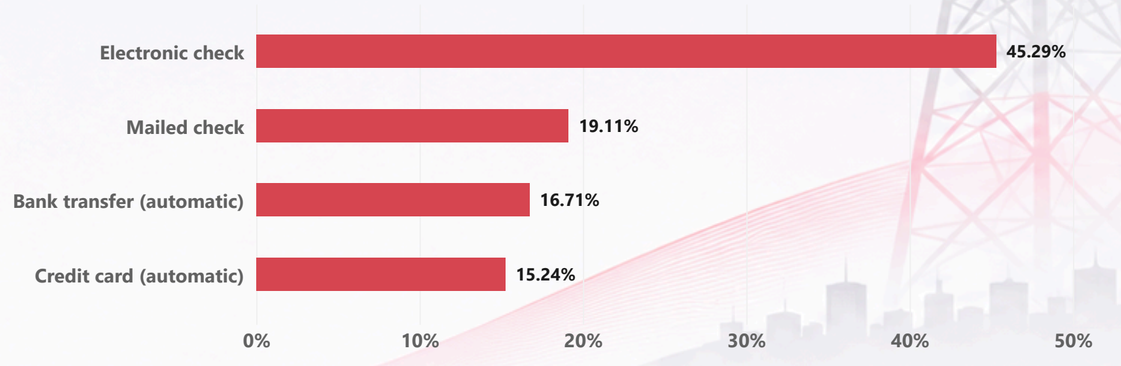

Churn Rate (Electronic Check)
45.29%

Churn Rate (Paperless Billing)
33.57%

Churn Rate by Service Adoption

Churn Rate by Payment Method

Key Takeways

- **Customers without Online Security (41.77%) and Tech Support (41.64%) have substantially higher churn rates than customers with these services (14.61% and 15.17%, respectively).**
- **Electronic Check users have the highest payment-method churn.** Their churn rate is 45.29%, making this customer segment a priority for further investigation.
- **Additional service adoption is associated with lower churn.** Customers without Online Backup (39.93%) and Device Protection (39.13%) also show considerably higher churn than customers using these services.
- **Streaming services show a smaller churn difference.** The gap between customers with and without Streaming TV or Streaming Movies is much narrower than the gap observed for security and support services.

Veyra Telecom | Early-Tenure Risk & Hypothesis Testing

Contract: All | Internet Services: All | Payment: All

High-Charge(<=12 months) Churn Rate
62.73%

Low-Charge(<=12 months) Churn Rate
32.18%

Difference (High - Low)
30.55% pp

Statistical Result (p - value)
1.03×10^{-46}

Churn Rate by Charge Group(<=12 Months Tenure)

Hypothesis Testing - Z-Test (Two Proportion)

Null Hypothesis(H0)	No difference in churn rate (p1 = p2)
Alternate Hypothesis(H1)	High-charge customers have a higher churn rate(p1>p2)
Test Statistics (Z)	14.3039
p-value	1.03×10^{-46}
95% Confidence Interval	26.50 pp to 34.46 pp

Conclusion

Staistically Significant

We reject the Ho. High-charge customers in the first 12 months are significantly more likely to churn.

Business Recommendations

Early Retention Offers
Provide targeted discounts or value-added bundles for new high-charge customers.

Optimize Plan Value
Review high-priced plans and improve perceived value(e.g., bundled services,longer contracts).

Proactive Customer Engagement
Run early-life engagement campaigns (check-ins, usage tips, and support) within the first 90 days.
